COURSE OVERVIEW

Mayfield Education is committed to innovation and excellence in the delivery of education and training for health and community services. The Graduate Certificate in Diabetes Education and Health Care is accredited by the Australian Diabetes Educators Association (ADEA) and will provide eligible health professionals with the qualification to practice in diabetes education. The Graduate Certificate in Diabetes Education and Health Care is unique in that it comprises 12 days (4 x 3 days) of campus-based study blocks including practical workshops in addition to online learning modules. The Mayfield course includes 1 week of participant observation on clinical placement.

ENTRY CRITERIA

Applicants for the Graduate Certificate in Diabetes Education and Health Care must be appropriately qualified and have a minimum 2 years post graduate experience.

Applicants must fall into the following categories:-

- Registered Nurse
- Accredited Dietician
- Registered Midwife
- Direct Entry Midwife
- Registered Podiatrist
- Registered Pharmacist
- Accredited Exercise Physiologist
- Registered Physiotherapist

As the course requires completion of self-directed online learning, it is expected that applicants have level 2 computer skills to undertake this. To assess whether you have adequate skills please undertake the free self-assessment at <http://surveys.nhaustralia.com.au/s3/NH-word-2013-Part-2>

In order to proceed,

1. Applicants must complete the relevant application form
2. Attach a C.V.
3. Include a statement of purpose for wishing to undertake this course (150 words maximum). Submission of this is made to the Student Services Officer a minimum of three weeks prior to course commencement.
4. Proof of 2 years (FTE) post graduate experience
5. Verification of current employment (recent employment within 6 months)
6. Authenticated copies of qualifications and transcripts

TRAINING PROGRAM

Course Content

Mayfield Education

Graduate Certificate in Diabetes Education and Health Care (V12936)

The Graduate Certificate in Diabetes Education and Health Care comprises campus-based and on-line learning modules as well as practical workshops.

Students are required to successfully complete the following.

Learning modules:

Unit 1: Management of diabetes module will provide students with the key principles necessary to provide optimal care to patients presenting with Type 1 and 2 diabetes, based on the National Standards of Practice for Diabetes Educators.

Unit 2: Psychological and special needs in diabetes education module will provide students with the knowledge and skills to support and empower patients to self-manage their diabetes.

Unit 3: Teaching and learning module will provide students with the knowledge and skills to develop and implement evidence-based health education and health promotion programs in a range of settings.

Unit 4: Evidence-based practice in diabetes education will provide students with skills to critically evaluate and utilise current research to support the development and implementation of policy and procedures, and organisational change.

Workload

By committing to the Graduate Certificate in Diabetes Education and Health Care it is expected you spend 8-10 hours per week studying and completing all learning modules for each unit of the course.

DELIVERY

Campus Based Learning 4 x 3-day Study Blocks (12 Days)

Supportive and interactive campus based learning and practical workshops provide members with the opportunity to liaise with their fellow students and learn from the experiences of a range of health professionals currently working in the field of diabetes education. The workshops also equip students with practical skills that will support their learning.

Clinical Placement

Students are required to complete **40 hours** of clinical placement which will provide them with the opportunity to develop and demonstrate competency in the tasks, skills and knowledge of a Diabetes Educator. This is organised by Mayfield Education. Please note, completion of the clinical practicum is a mandatory requirement for the course and for those seeking ADEA credentialing status.
